

Money Trivia

Who was the youngest person in American to earn \$1 million on his or her own? The answer is a little girl who was not quite ten years old.

By the time Shirley Temple was ten, in 1938, she had already earned over \$1 million from her series of hit films and from her endorsements of Shirley Temple dresses and dolls.

She got no royalties, however, from the alcohol-free Shirley Temple cocktail.

Ever wish you could fill out an application for a loan online? It's coming!

ASB is working hard to go green by offering e-statements (no more stacks of old statements or wasted postage!) and to make our products more convenient for our customers by allowing loan applications online (but they'll still be processed on the local level) and eventually, deposit accounts applications will be online as well.

Another improvement we're making is to digitally scan all documents so that our employees can call them up instantly to make your transactions faster. Soon, your identification and signature will be available instantly to tellers, which will be added security for you! In the past, say you opened an account at the main office in Portsmouth, but stopped at the Wheelersburg branch. A teller would have to call the Portsmouth office, wait until a teller was free, the Portsmouth teller would have to look up the account, pull the signature sheet out of the binder, photocopy it, fax the photocopy to Wheelersburg, then shred the copy. Meanwhile you and the Wheelersburg teller are waiting. This document scanning is a good, nay **great** idea.

We've Got Spirit!
